

## Abstract Submission - Missed the Deadline?

Thank you to everyone who submitted an abstract, we have received a record breaking 80 abstracts! We will notify everyone before the New Year if they have been successful or not.

If you missed the oral abstract deadline but would still like to get involved in the conference, poster abstracts are being accepted up until the **28th February 2018**.

Download the abstract template [here](#) to submit your work today!

## SPOTLIGHT ON: Pre-Conference Course

Join us in the afternoon of **Sunday 3rd June** for the 2018 PSI **Pre-Conference Course**. This year the session title will be "Demystifying Causal Inference: Assessing efficacy when patients depart from randomised treatments", presented by Professor Ian White and Professor Sabine Landau.

The key learning goals for this course are:

- To increase your understanding of principal stratification, described in the ICH E9 draft addendum
- To understand the concepts of causal inference in randomised trials
- To understand the statistical methods used to answer various causal questions
- How to implement the statistical methods within standard software
- How to apply the concepts and statistical methods to different clinical areas

[Click here](#) for more information.

Registration for the course is available through the [conference registration site](#). Places on the course are limited so book early to avoid disappointment, and take advantage of the early bird discount!

# PROGRAMME HIGHLIGHTS: Visual Analytics

## "A picture says more than 1000 tables - interactive data review using visual analytics"

This session will feature presenters from Lilly and Bayer, with a final panel discussion including our Keynote speaker Steve Ruberg (Lilly) and Emma Jones (Veramed), who will provide their views on these topics from a sponsor and CRO perspective.

During this session you will learn:

- What are the benefits of using more visual analytics?
- What are the barriers for using more visual analytics?
- What are the solutions to overcome some of these barriers?
- View examples
