

THE FUTURE OF MEDICAL STATISTICS IS YOU

Join our apprenticeship scheme today and learn as you earn. Earn a fully funded MSc qualification in statistics and gain valuable on-the-job skills without fees.

Who is it for?

Anyone with a desire to be a Medical Statistician who has:

- A Home Postcode in England
- BSc 2:2 or higher in a numerically based subject (No experience in medical statistics required)

How does it work?

- Study alongside gaining on-the-job experience
- Apprenticeship completed in 2-3 years (fully funded)
- Employed full-time at the company with full-time pay (released for at least 20% off-the-job training)
- Distance learning and face-to-face University courses are available
- Option to stay and continue working for company post-completion of apprenticeship
